Sir:

Responsive to the Action mailed August 31, 2001, applicant responds as follows:

In the Specification:

Please amend the specification as follows:

On page 4, lines 19-25, please amend the respective paragraph as follows:

A1  
In the system depicted in Fig. 1, the printer architecture has an image sensor 102 to capture an image of the watermarked print media. As discussed below, the image sensor may be an integrated component of a product with a printer subsystem or a separate component of a computer system attached to a printer. The image sensor transfers the image to a memory device. Depending on the implementation, this transfer
